Don't let yours go unclaimed!

The Employee Retention Credit (ERC) is still available to you as a tax REFUND!

IRS rules are complicated. And **Congress has CHANGED the rules** about ERC at least three times since 2020. It's understandable many employers and CPAs believe they're not eligible. Let us help you sort it out.

What's it worth?

A business employing 20 people can earn up to \$140,000 per quarter and up to \$420,000 in 2021. **Imagine taking that check to the bank!**

How?

Qualifying can come from details like:

- *Quarterly* reductions in your gross receipts
- *Partial* shutdowns imposed on your operations
- Limitations you experienced because of Covid-19 restrictions *on your suppliers*

In fact, you can still qualify ***even if your profits increased.***

**We're your ERC
specialist helping you
& your Accountant
come out on top.**
